

Technical Data Sheet

Safety Goggles

WR1012T/WR1012C

Description

Safety Goggles feature clear lenses and direct ventilated frames for splash resistance. They provide exceptional value with a comfortable fit and allow for good peripheral vision. These high impact safety glasses meet ANSI Z87 high impact standards.

Features:

- Polycarbonate lens for energy impact protection
- Adjustable elastic strap
- Comfort nose bridge
- Anti-scratch and anti-fog lens
- Soft PVC and side shield protection

Materials

Filter Lens Material	Polycarbonate
Filter Lens Shade	Clear
Optical Class	Optical Class 1
Coating	Anti-scratch, Anti-fog, 400UV Protection

Packing

1piece/polybag; 10pieces/box; 10box/carton
Measurement: 54*38*35CM, GW: 10.0Kgs, NW:
8.5Kgs

Product Origin

Taiwan

Approvals

CE EN166:2001, EN170:2002,
EN172:1994+A1:2000+A2:2001
ANSI Z87.1, AS/ NZS 1337.1 : 2010

Application

The WR1012 safety goggle is suitable for general industrial use providing protection from impact and small flying particles (dust) eg, when grinding, sanding, etc. Ideal for industries/applications such as pulp and paper, food processing, petrochemical, refining, mining and timber processing.
