

Technical Data Sheet

WELDING GLOVES

Code: WR1021

Description

Welding gloves made from Cow split leather, double fabric lining, black reinforced patch palm with Kevlar stitching. The split leather treated against the heat brings an excellent resistance to fire and convective heat.

Features:

- ✓ Excellent protection from heat, sparks and slag
- ✓ Extra sturdy stitching with leather strip for protection against projections
- ✓ Lined with insulating materials, increasing the gloves' thermal insulation
- ✓ Extra long

Materials

Palmside	Cow split
Upperhand	Cow split
Liner	Cotton fleece
Size	16 inch
Color	Red

Approvals

EN420
EN407 & EN388

Application

Ideal for welding and hot, heavy material handling

Product Origin

Pakistan
