

Safety Traffic Cone WR 1026

Description

High quality traffic cone with reflective strip for increased visibility. Ideal for roadworks, civil engineering, schools and carparks etc.

Features:

Durable and flexible in all weather conditions.
Long lasting brilliant fluorescent color provides high visibility protection.
Highly visible and easily movable with retroreflective strip to increase visibility.
Ultraviolet stabilized color provides maximum resistance to fading.
High density base creates low center of gravity for maximum stability.

Specification:

Body	Heavy Duty 100% Recycled PE (HDPE)
Size	1m
Color	Orange
Base	Plastic Rubber (PVC Compaction)
Weight	5kgs.
Size	49cm x 49cm
Color	Black
Reflector	Lattice
Size	32cm
Color	White

Typical Application:

Used outdoors during road work or other situations requiring traffic redirection or advance warning of hazards or dangers, or the prevention of traffic.
Used to create separation or merge lanes during road construction projects or automobile accidents.
May be fitted with flashing to increase visibility.

Country of Origin

China
