

Technical Data Sheet

CHEMICAL GLOVES

Code: WR3011

Description

Chemical Gloves made from nitrile rubber, sanitized liner and chemically toughened to meet demanding user requirements. Chemical resistant provide protection against most chemicals.

Features:

- Nitrile protects the hand from oils, hydrocarbons and grease penetration.
- Light, elastic low-lint gloves, resistant to deformation.
- Seamless knit designed to prevent irritation.

Approvals

EN420 & EN388

Materials

Liner: Nylon, Seamless Knit

Coating: Nitrile

Color: Blue

Application

Petrochemical

Construction

Chemical

Product Origin

China

Packing

Measurement: 37*28*65CM

GW: 29kgs

120pairs/CTN
