

Technical Data Sheet

WELDING GOGGLES

Code: WR A612

Description

Welding Goggles are designed to provide protection for certain types of Gas Welding or Oxygen Cutting applications. Welding Goggles not only protect your eyes from the heat and flying debris, but also from intense ultraviolet and infrared light.

Features:

- Non allergenic soft & flexible vinyl frame
- Flip-type lens holder
- Indirect ventilation system
- Adjustable elastic strap
- Private Labelling available

Approvals

CE EN166, 175
ANSI Z87.1

Materials

Frame	PVC
Lens	Polycarbonate
Headband	Polyester

Application

- Suitable for general industry including fabrication, engineering and maintenance operations.
- Suitable for gas welding, oxy cutting processes outlined in AS/NZS 1336.
- Suitable for Oxy gas welding operations, flame gauging, brazing and cutting

Product Origin

Taiwan

Packing

20pcs/inner box, 200pcs/CTN
